

# CW-2000MM-E

- Multi-Mode Fiber
- Industrial Performance
- Low Maintenance
- 19" Rack Design
- Water Cooled

## TECHNICAL SPECIFICATIONS:

### CW-2000MM-E

Central Wavelength	1080 nm
Nominal Output Power	2000 W
Mode of Operation	CW/modulated
Beam Parameter Product	1.6 mm*mrad
Fiber Core Diameter	50 µm
Modulate Frequency	Max. 20 kHz
Polarization	Random
Output	QBH
Average Power Instability	< 1%

<sup>1</sup> Fiber Core Diameters available with 50 µm - 600 µm

<sup>2</sup> Fiber Length available up to 20 m

Typical Lifetime Diodes	100.000 h
Fiber Length <sup>2</sup>	8 m
Cooling Method	Water
Red Pilot Beam	Yes
Dimensions W*D*H	446*800*178 mm
Weight	85 kg
Supply Voltage	380V AC (1P)
Power Consumption (20 °C)	6000 W
Operation Temperature	10 - 40 °C
Storage Temperature	-10 - 60 °C
Laser Start Temperature	21 °C

Manufacturer:

**JPT**
